

## SAFETY DATA SHEET

**Product Name: Diltiazem Hydrochloride for Injection**

### 1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

<b>Manufacturer Name And Address</b>	Hospira, Inc. 275 North Field Drive Lake Forest, Illinois 60045 USA
<b>Emergency Telephone</b>	CHEMTREC: North America: 800-424-9300; International 1-703-527-3887; Australia - 61-290372994; UK - 44-870-8200418
<b>Hospira, Inc., Non-Emergency</b>	224 212-2000
<b>Product Name</b>	Diltiazem Hydrochloride for Injection
<b>Synonyms</b>	1,5-benzothiazepin-4(5H)-one, 3-(acetyloxy)-5-[2-(dimethylamino)ethyl]-2, 3-dihydro-2-(4-methoxyphenyl)-, monohydrochloride,(+)-cis-

### 2. HAZARD(S) IDENTIFICATION

**Emergency Overview** Diltiazem Hydrochloride for Injection is a lyophilized powder containing diltiazem hydrochloride, a calcium antagonist (calcium channel blocker) used to treat angina pectoris, variant angina and essential hypertension, and other cardiovascular conditions. In the workplace, this material should be considered potentially irritating to the eyes and respiratory tract, and a potential occupational reproductive hazard. Based on clinical use, possible target organs include the cardiovascular system, nervous system, and liver.

#### U.S. OSHA GHS Classification

Physical Hazards	Hazard Class	Hazard Category
	Not Classified	Not Classified
Health Hazards	Hazard Class	Hazard Category
	Acute Toxicity – Oral	4
	Eye Damage/Irritation	2B
	Toxic to Reproduction	2
	STOT - RE	2

#### Label Element(s)

**Pictogram**

**Signal Word**

Warning

**Hazard Statement(s)**

Harmful if swallowed  
Causes eye irritation  
Suspected of damaging fertility or the unborn child  
May cause damage to organs through prolonged or repeated exposure

**Precautionary Statement(s)  
Prevention**

Obtain special instructions before use  
Do not handle until all safety precautions have been read and understood  
Wear protective gloves/protective clothing/eye protection/face protection  
Do not breathe dust, vapor or spray  
Do not eat, drink or smoke when using this product  
Wash hands thoroughly after handling

**2. HAZARD(S) IDENTIFICATION: continued**

**Response** If exposed or concerned: Get medical advice/attention. Get medical attention if you feel unwell.

IF SWALLOWED: Call a poison center/doctor if you feel unwell. Rinse mouth.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.

**3. COMPOSITION/INFORMATION ON INGREDIENTS**

**Active Ingredient Name** Diltiazem Hydrochloride  
**Chemical Formula**  $C_{22}H_{26}N_2O_4S \cdot HCl$

Component	Approximate Percent by Weight	CAS Number	RTECS Number
Diltiazem Hydrochloride	57	33286-22-5	DL0310000

Non-hazardous ingredients include mannitol.

**4. FIRST AID MEASURES**

**Eye Contact** Remove from source of exposure. Flush with copious amounts of water. If irritation persists or signs of toxicity occur, seek medical attention. Provide symptomatic/supportive care as necessary.

**Skin Contact** Remove from source of exposure. Flush with copious amounts of water. If irritation persists or signs of toxicity occur, seek medical attention. Provide symptomatic/supportive care as necessary.

**Inhalation** Remove from source of exposure. If signs of toxicity occur, seek medical attention. Provide symptomatic/supportive care as necessary.

**Ingestion** Remove from source of exposure. If signs of toxicity occur, seek medical attention. Provide symptomatic/supportive care as necessary.

**5. FIRE FIGHTING MEASURES**

**Flammability** None anticipated for this product. However, many organic dusts will combust at elevated temperatures.

**Fire & Explosion Hazard** None anticipated for this aqueous product. Avoid the creation of dusty environments.

**Extinguishing Media** As with any fire, use extinguishing media appropriate for primary cause of fire such as carbon dioxide, dry chemical extinguishing powder or foam.

**Special Fire Fighting Procedures** No special provisions required beyond normal firefighting equipment such as flame and chemical resistant clothing and self contained breathing apparatus.

**6. ACCIDENTAL RELEASE MEASURES**

**Spill Cleanup and Disposal** For spilled powder, isolate area around spill. Put on suitable protective clothing and equipment as specified by site spill control procedures. Collect the spilled powder using techniques that minimize powder migration. Clean affected area with soap and water. Dispose of materials according to the applicable federal, state, or local regulations.

If a spill occurs after reconstitution, absorb liquid with suitable material and clean affected area with soap and water. Dispose of materials according to the applicable federal, state, or local regulations.

**7. HANDLING AND STORAGE**

**Handling** No special handling required for hazard control under conditions of normal product use.

**Storage** No special storage required for hazard control. For product protection, follow storage recommendations noted on the product case label, the primary container label, or the product insert.

**Special Precautions** No special precautions required for hazard control.

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

**Exposure Guidelines**

Component	Exposure Limits			
	OSHA-PEL	ACGIH-TLV	AIHA WEEL	Hospira EEL
Diltiazem Hydrochloride	8-hr TWA: Not Established	8-hr TWA: Not Established	8-hr TWA: Not Established	8-hr TWA: Not Established

Notes: OSHA PEL: US Occupational Safety and Health Administration – Permissible Exposure Limit  
 ACGIH TLV: American Conference of Governmental Industrial Hygienists – Threshold Limit Value.  
 AIHA WEEL : Workplace Environmental Exposure Level  
 EEL: Employee Exposure Limit.  
 TWA: 8-hour Time Weighted Average.

**Respiratory Protection** Respiratory protection is normally not needed during intended product use. However, if the generation of dusts or aerosols is likely, and engineering controls are not considered adequate to control potential airborne exposures, the use of an approved air-purifying respirator with a HEPA cartridge (N95 or equivalent) is recommended under conditions where airborne aerosol concentrations are not expected to be excessive. For uncontrolled release events, or if exposure levels are not known, provide respirators that offer a high protection factor such as a powered air purifying respirator or supplied air. A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions require respirator use. Personnel who wear respirators should be fit tested and approved for respirator use as required.

**Skin Protection** If skin contact with the product formulation is likely, the use of latex or nitrile gloves is recommended.

**Eye Protection** Eye protection is normally not required during intended product use. However, if eye contact is likely to occur, the use of chemical safety goggles (as a minimum) is recommended.

**Engineering Controls** Engineering controls are normally not needed during the normal use of this product.

## 9. PHYSICAL/CHEMICAL PROPERTIES

Appearance/Physical State	Off-white lyophilized powder
Odor	NA
Odor Threshold	NA
pH	NA
Melting point/Freezing Point	NA
Initial Boiling Point/Boiling Point Range	NA
Flash Point	NA
Evaporation Rate	NA
Flammability (solid, gas)	NA
Upper/Lower Flammability or Explosive Limits	NA
Vapor Pressure	NA
Vapor Density (Air =1)	NA
Relative Density	NA
Solubility	Diltiazem hydrochloride is soluble in water, methanol, and chloroform
Partition Coefficient: n-octanol/water	NA
Auto-ignition Temperature	NA
Decomposition Temperature	NA
Viscosity	NA

## 10. STABILITY AND REACTIVITY

Reactivity	Not determined.
Chemical Stability	Stable under standard use and storage conditions.
Hazardous Reactions	Not determined
Conditions to Avoid	Not determined
Incompatibilities	Not determined
Hazardous Decomposition Products	Not determined. During thermal decomposition, it may be possible to generate irritating vapors and/or toxic fumes of carbon oxides (COx), nitrogen oxides (NOx), sulfur oxides (SOx) and hydrogen chloride.
Hazardous Polymerization	Not anticipated to occur with this product.

## 11. TOXICOLOGICAL INFORMATION

Acute Toxicity - Not determined for the product formulation. Information for the active ingredient is as follows:

Ingredient(s)	Percent	Test Type	Route of Administration	Value	Units	Species
Diltiazem Hydrochloride	100	LD50	Oral	560	mg/kg	Rat
				508	mg/kg	Mouse
Diltiazem Hydrochloride	100	LD50	Intravenous	38	mg/kg	Rat
				58	mg/kg	Mouse

LD 50: Dosage that produces 50% mortality.

**11. TOXICOLOGICAL INFORMATION: continued**

<b>Occupational Exposure Potential</b>	Information on the absorption of this product via inhalation or skin contact is not available. Avoid liquid aerosol generation and skin contact.
<b>Signs and Symptoms</b>	None anticipated from normal handling of this product. In clinical use, intravenous administration of diltiazem hydrochloride has produced a low incidence of lowered blood pressure (hypotension), decreased heart rate and alterations in cardiac function. Oral administration of diltiazem has produced a low incidence of headache, edema, asthenia, flushing, gastrointestinal upset, constipation, dizziness, decreased heart rate, alteration in cardiac function, hypersensitivity and rashes. Overdosage has resulted in bradycardia, hypotension, heart block and cardiac failure.
<b>Aspiration Hazard</b>	None anticipated from normal handling of this product.
<b>Dermal Irritation/ Corrosion</b>	None anticipated from normal handling of this product.
<b>Ocular Irritation/ Corrosion</b>	None anticipated from normal handling of this product. However, inadvertent contact of this product with eyes may produce irritation.
<b>Dermal or Respiratory Sensitization</b>	None anticipated from normal handling of this product.
<b>Reproductive Effects</b>	None anticipated from normal handling of this product. No evidence of impaired fertility was observed in a study in male and female rats at oral dosages of up to 100 mg/kg/day. Reproduction studies conducted in mice, rats, and rabbits using oral dosages ranging from five to ten times greater (on a mg/kg basis) than the daily recommended oral anti-anginal therapeutic dose has resulted in embryo and fetal lethality. These dosages, in some studies, have been reported to cause skeletal abnormalities. In the perinatal/postnatal studies there was some reduction in early individual pup weights and survival rates. There was an increased incidence of stillbirths at doses of 20 times the human oral anti-anginal dose or greater.
<b>Mutagenicity</b>	Diltiazem was not mutagenic in repair and reverse mutation assays in bacteria, did not produce chromosomal aberrations in cultured mammalian cells, and did not produce chromosomal aberrations in the micronucleus assay in mice.
<b>Carcinogenicity</b>	A 24-month study in rats at oral dosage levels of up to 100 mg/kg/day, and a 21-month study in mice at oral dosage levels of up to 30 mg/kg/day showed no evidence of carcinogenicity.
<b>Carcinogen Lists</b>	<b>IARC:</b> Not listed <b>NTP:</b> Not listed <b>OSHA:</b> Not listed
<b>Specific Target Organ Toxicity – Single Exposure</b>	NA
<b>Specific Target Organ Toxicity – Repeat Exposure</b>	Based on clinical use, possible target organs include the cardiovascular system, nervous system, and liver.

**12. ECOLOGICAL INFORMATION**

<b>Aquatic Toxicity</b>	Not determined for product
<b>Persistence/Biodegradability</b>	Not determined for product.
<b>Bioaccumulation</b>	Not determined for product.
<b>Mobility in Soil</b>	Not determined for product.

Notes:

**13. DISPOSAL CONSIDERATIONS**

<b>Waste Disposal</b>	All waste materials must be properly characterized. Further, disposal should be performed in accordance with the federal, state or local regulatory requirements.
<b>Container Handling and Disposal</b>	Dispose of container and unused contents in accordance with federal, state and local regulations.

**14. TRANSPORTATION INFORMATION**

<b>ADR/ADG/ DOT STATUS</b>	Not regulated
<b>Proper Shipping Name</b>	NA
<b>Hazard Class</b>	NA
